His Style

Man Time

Combining old values and traditional craftsmanship with 21st-century aesthetics, **Mont Blanc Time Walker Chrono Automatic** is comprised of four chronographs which are a veritable celebration of technical complexity. The sporty, dynamic and masculine watch, with architectonic shape, and domed, scratchproof, non-reflective sapphire crystal casing makes a striking impression, wherever you are in the world. www.montblanc.com.

Urbane Travel

The dynamic fragrance Davidoff **ECHO** beguiles with a cool, metallic undertone, and is allegedly best interplayed with soft, fresh suede, to round off its inimitable essence. Leaving the skin revitalised and sensuous, this fragrance carries the spirit of the times, but emits an unmistakable **ECHO** of the yesteryear's urbane man-about-town. Products in the new range include a deodorant, aftershave lotion, eau de toilette, and the small, compact, travel-size 'Nomad Edition' eau de toilette spray. www.zinodavidoff.com.

Long-Haul Hydration

Your skin is alive, and the biologists at **BIOThERM** like to create mechanisms which help it act like a younger skin. **Aqua Source Non Stop** allows you to bathe the face in a vital moisturising bath enriched with trace minerals and concentrated spa water; the equivalent which is found in 5000 litres of spa water. This texture forms a close-knit mesh over the face, creating a 'moisture network' that provides intense hydration for hours, and is hence perfect for long-haul plane journeys. www.biotherm.com.

Curve Time

Carré Cambré Diplomatic by Dubey & Schaldenbrand follows a 1920's design concept, as with the softness of the watchcase's lines. The Carré Cambré (meaning cushion-shaped) is not exactly square, not exactly round. The Diplomatic's most useful feature is the ability to set a 2nd time zone without interrupting the main timekeeping mechanism. The automatic movement allows the user to adjust all functions with a single crown, leaving the case unblemished of any other pushbuttons or correctors. www.dubeywatch.com.

Executive Chic

Dunhill d-eight is a brand's latest collection of luxurious luggage, which seeks to add a certain je ne sais quoi to your travel experience. Ideal for seasoned travellers who wish to set an über-sophisticated style, or an elegant, express weekend sojourn, these bags are instantly recognisable by the cognoscenti. The computer bag, with its symmetrical pattern-of-eight design, in a black and rich chocolate brown, will certainly impress your business acquaintance. www.dunhill.com.

Flowering Beauty

Flower by Kenzo is a soft, warm, and powdery fragrance; the kind of scent that may well elicits lusty stares. Appealing to fans of florals and musks, this is a sensual, overtly feminine scent. Linking the city woman with nature, Flower is equally suited for a summer day, night out on the town, or shopping excursion. Notice hints of Wild Hawthorn, Bulgarian Rose, Parma Violet, Cassia, Hedione, Cyclosal, Opoponax, Wild Musk, and Vanilla. www.kenzo.com.
