

COME SLEEP WITH ME

Phuket

STYLISH PALMS

With superior accommodation and a yacht for hire, Twinpalms is one of the top retreats in Phuket, despite the fact it is not all that close to the sea.

THE SCENE

Located in the Surin Beach area of Phuket, which tends to be one of the least crowded and most beautiful coastal areas of the island, this resort makes up for the fact that it is not beachside with a truly awesome design. The high ceiling *sala* welcomes guests and is surrounded by the water of a large swimming pool which is shaded by palm trees: an entrance emblematic of the style and calm of this resort. Included is a fantastic library, bar, dining venues and a great spa.

THE ROOMS

The Residence Suite is a real highlight in terms of rooms, being both well equipped with a crisp design. Included in the room is a large flat-screen TV and iPod docking station, along with a great mini bar and amenities from the luxury brand, Molton Brown. The 488 sqm includes, most importantly, a private pool, and comes in three varieties: Penthouse, Rooftop Pool Suite and Garden Pool Suite. The suites are particularly appropriate for anyone looking for a honeymoon destination or a place to relax with friends.

DRINK & DINE

Twinpalms Phuket is famous for its culinary outlets. Sunday Brunch is served at the Oriental Spoon, drawing attention because of the wide range of fresh seafood, selection of cheese and desserts. The Pool Bar is popular for afternoon snacks and early evening sundowners. Catch Beach Club (the resort's dining venue on the beach) is a perfect dining venue for those who love to dine by the beach and listen to the waves hitting the shore while relishing a slice of pizza or some pasta. Catch Beach Club is also open in the afternoon with an interesting choice of dishes like *khao soi* (a traditional curry with fried noodles) and prawns with *wasabi*.

THE FACILITIES

The library is hidden away in a lush tropical garden and is well designed and beautifully illuminated at night. Nearby is the Palm Spa & Palm Wellness Centre offering a host of relaxation techniques from massages to facial treatments. For those who can't live without working out, there are gym facilities at the Health Club. In addition to the playful design which runs throughout the resort are the rental cars, which come covered with lipstick marks from the resort staff.

SOMETHING SPECIAL

Complete the ultimate holiday experience by cruising through the Andaman Sea with Twin Palms *One 76'*, Phuket's most exciting and stylish contemporary yacht. The interior, designed by Twinpalms' renowned designer Martin Palleros, is decorated with a combination of teak, stained walnut and light beige leather and is equipped with a Bose and Sony entertainment system to create the ultimate in on-board entertainment. Its deck is perfect for both sun tanning, and catching the sunsets of this beautiful stretch of coast. For those guests who require something more active, the yacht comes with a luxury Williams 385 turbojet, allowing guests to roam the seas and shores looking for remote private beaches. Even when you are in the middle of the sea, the freshest Andaman Sea seafood accompanied by a selection of cheese, fine wine and champagne can also be arranged by Twinpalms' renowned chef.

IF I HAD ONE QUIBBLE...

...the Catch Beach Club is clearly one of Phuket's nicest dining venues, but it takes almost 5 minutes to walk there, and the lighting is not all that bright at night. Some might however, consider it a romantic walk. For me, life would have been easier with a buggy car. – *Jeerawan Duangnam* /
