

COME SLEEP WITH ME

Trat, Thailand

HIDE AND SEEK

In spite of its name, the Centara Chaan Talay Resort & Villas, Trat is well off the beaten track, redefining isolation and providing, for some, the perfect secluded getaway.

THE SCENE

Only a four-hour drive from Bangkok along some of the country's most idyllic fruit-seller lined lanes, Centara Chaan Talay Resort & Villas Trat epitomises tranquility. Despite the fact that the resort is 40 kms from Trat Town, it is conveniently located facing the sea on one side and the Ban Thad Mountain, which sits on the border between Thailand and Cambodia, on another.

THE ROOMS

Generosity with living space, whether you are staying in any of the top notch suites (all the accommodation options are suites here), is the key at Centara Chaan Talay Resort & Villas Trat. Each suite comprises of a bedroom, private bathroom and a separate living room with flat screen TV with satellite channels and other standard amenities. The villa suites throw a Jacuzzi in with this.

DRINK & DINE

Walk barefoot to Breezes beachside bar to enjoy a sundowner in this resort which is compact enough for everything to be in easy walking

distance, meaning a trek is not required in order to find breakfast. Azure is an all day dining restaurant serving breakfast in the morning and converting to a Mediter-Asian venue in the evening for a romantic star-lit evening meal beside the beach. The restaurant serves a range of Trat specialities, including *Moo Chamuang* a traditional southern curry which can be hard to find.

SOMETHING SPECIAL

The beach is incredibly beautiful especially during a sundowner as the fading light paints the sky like an artist's palette.

IF I HAD ONE QUIBBLE...

...the resort is secluded in the truest sense of the word, with Trat being a considerable drive away. This is perfect for a hideaway vacation, but for those without a car and in need of a little entertainment, it can be somewhat isolated. – *Jeerawan Duangnam* /
